

How to Sign-In to an Amentum Extranet Site

- 1 Enter the site's link in a web browser.

- 2 Click the **Windows Authentication** button. Ignore the fields below this button.

A screenshot of the Amentum login page. The page features the Amentum logo at the top. Below the logo, there is a "Sign in using:" section with a button labeled "Windows Authentication" highlighted by a red box and a red arrow. Below this, there is an "Or" separator. The rest of the page is crossed out with a large red "X" and the text "Ignore These Fields" in red. The fields that are ignored include: "User Name:" with a text input field; a message: "Multi-Factor Authentication has been enabled for this site. Please select a delivery method and click 'Request Code'. Enter the code you receive then complete the login process."; a checked checkbox for "Email"; a "Request Code" button; "Enter authorization code:" with a text input field and a note: "Note: For security purposes copy/paste has been disabled on this field."; "Password:" with a text input field; a "Forgot your password?" link; and a "Sign In" button. At the bottom, there is a link: "Need help signing in? Visit the [Extranet Assistance](#) page."

- 3 The Extranet site opens.
